BASIC THESIS - I am presenting a thesis for your consideration in this study that God is using the Nishimura Comet passing celestial waypoints, such as the Heart-Shaped Cluster, Heart and Dagger Cluster, and other celestial star waypoints, to telegraph the Rosetta Star (key) of Revelation timing. Once this "anchor point" is known, we can then turn to the Bible to compile the entire end-time battleplan.

These events are very important to know in order for us to prepare for them. If we know when, and are substantially certain of the accuracy, then Revelation timing stops being viewed as "someday" and starts becoming far more real and urgent in order to prepare for events that will occur on specific days. And if an event occurs on one of these early days in the model, the likelihood of subsequent days / events dramatically increases, or starts to telegraph future events that we can begin to prepare for with increasing confidence.

If we take the general framework and timeline of Revelation, utilize the Nishimura Comet timeline as an alignment tool, and verify that alignment with the Jewish Feasts, this should result in a general placement of events described in Revelation. Once the measurements are complete, we can check those day-counts against Strong's Concordance definitions to make a determination if the measurement is correct. If that definition does not relatively apply to the timeframe, we would ignore the measurement and study other measurement possibilities.

What began to happen as the model continually added measurements, checked day-counts against Strong's Concordance, and checked the shifting of the model against different years in the Jewish Feast Calendar was a substantial number of these measurements were telegraphing a remarkable correlation between the day-count and definition. This began to become obvious that there was indeed a connection between them.

When we combine all of these time measurements we get confirmation that any individual measurement is correct. In other words, if any of the measurements are wrong, other time measurements should reveal that error, where we would then remove that measurement.

This initial 2023 study only had 12 measurements. Each of those measurements of time demonstrated this theory had a reason to build an entire model attempting to place other major Revelation events in this manner. If Revelation could be mapped out in this way, it would be an external or alternative methodology for confirming the events other than exclusively utilizing a subjective understanding of the Bible.

This model is only a visual thesis of how Revelation is structured. It can only be verified once events shown on specific days actually occur.

Note 1: (original Nishimura timeline study)

There are 12 specific day-count messages.

Applying random individual chance probabilities to each day-count, then calculating the compound probability of all 12 probabilities, the probability of that happening is 1 in 168 quintillion (approx.)

That's like picking the only correct dollar bill out of 168 quintillion dollar bills stacked on top of each other that would reach 11.4 trillion miles high, or 122,000 times the distance from Earth to the Sun. Or, an act of God!

Note 2: (follow this line to the bottom)

Psalm 90:10 - Per the Bible a generation is 70 to 80 years. Notice the end of this 309-day measurement, meaning "no more delay," ends precisely in the 80th Fig Tree Generation year.

The day this delay ends is exactly 7-days after Shmini Atzeret 2027 (8th Day of the Feast of Tabernacles - or "caught up" #1). Also, notice God is waiting until the last possible moment to set these events in motion.

This "delay" ends on the exact day before Halloween 2027, or where this warning message from God started 5-years earlier in "Real Time" of the Nishimura Comet!

START HERE - Did God hide the Rosetta Star of Revelation timing inside the Nishimura Comet? That is what this model is suggesting.

This original study was conducted in September of 2023 after the discovery of the C/2023 P1 Nishimura Comet. You can view that study at: https://crowdedheaven.com/battleplan.html

Background: The Nishimura Comet was discovered by an armature astronomer Hideo Nishimura on 11-AUG-23. This was a very timely discovery in eschatology (study of end-times) as the fall Jewish Feasts were fast approaching and theories were being considered that pointed to 2023 as a significant year. As it turned out, those theories proved errant as so many typically do, and 2023 came and went.

However, my curiosity of this comet in September of 2023, after studying many of the theories presented around Nishimura, led me to likewise look at this celestial object for myself. I had been watching people utilize an astronomical software called Stellarium and I wanted to try it out for myself. Within the first 3-minutes, something amazing, and supernatural happened. Here's the Stellarium site: https://stellarium-web.org

The very first time I opened the application, I clicked around on several of the buttons to get a feel for how it worked. After a couple minutes doing this, I looked up at the top of the screen and noticed a "search" bar. Instantly, in my mind, I heard the word "heart." I felt this was odd because I'm on a astronomy site where you would think to search for things like the Milky Way, Big Dipper, and Orion. Heart would be the last word I would enter into that search bar. The Holy Spirit, however, prompted me to do just that.

When you enter the word "heart" into the search bar in Stellarium, it populates three results - Heart-Shaped Cluster, Heart and Dagger Cluster, and Heart Nebula in that order. When I clicked on the first result, Heart-Shaped Cluster, my own heart skipped several beats. Instantly I knew there was some connection between Nishimura and this Heart-Shaped Cluster. I had been watching numerous videos on Nishimura and immediately recognized the area this Heart-Shaped Cluster was in, which is where Nishimura began its journey back in 2022. When I then clicked on the second search result, Heart and Dagger Cluster, my heart skipped several more beats as I again recognized this area where the Nishimura Comet ended its journey.

The probability of these two Heart-named Clusters being located along the path of the Nishimura comet are staggering and sent me down a path of my own study that is presented here.

I hope you find this study encouraging that God may be revealing the timing of Revelation with the Rosetta Star in this celestial "sign" as He promised in Genesis for us to prepare.

WARNING! 7-Year Tribulation Theory:

And if any man shall take away from the words of the book of this prophecy, God shall take away his part out of the book of life, and out of the holy city, and from the things which are written in this book. [Revelation 22:19]

Per this scripture above, a clear warning is provided for those who alter in any way the message of Revelation. Nowhere in this book does it say that the tribulation is 7-years long. This Nishimura study also confirms this 3.5-year timeframe per the Bible.

God obviously knows exactly how long Revelation will take and he additionally knew this errant 7-year interpretation would surface, which is why He provided this very specific warning to not alter these durations, or anything in Revelation, in any way.

The ONLY timeframe's provided in Revelation are as follows:

Timeframe	Reference	Duration
42 Months	Rev 11:2, 13:5	3.5 years
1,260 Days	Rev 22:3, 12:6	3.5 years
Time, Times, and Half a Time	Rev 12:14	3.5 years
5 Months	Rev 9:5, 9:10	5 months
1 Hour	Rev 17:12, 18:10-19	1 hour
1,000 Years	Rev 20:2-7	1,000 years
For ever and ever	Rev 1:8, 14:11, 20:10	Eternity
	Rev 21:4, 22:5	

The purpose of this observation is to warn those utilizing the 70-weeks outlined in Daniel chapter 9 as an interpretation to double the tribulation time duration.

Note 4: The Delay: 70 x 7 = 490 = Jesus!
The purpose of this very specific 1441-day delay, or shift, is to give all glory to Jesus! I'm no longer asking the question as to whether this shift is correct? Jesus was mathematically coded into the original 2023 Nishimura Waypoints.

(527 + 656 + 229 + 104 + 309) = 1825 - 1335 (Dan 12:12) = 490 = Jesus

Now, with this shift of 1441-days to align with 2027, with the Strong's Concordance definition of "seventy times" in Matt 18:22, there can be no doubt that we now have the proper alignment. There is simply no way that this 490 number, mathematically encoded into the Bible, and into the Nishimura Comet, but now also encoded into the exact day count needed to glorify Jesus, is not right.

490 (Jesus) is the answer!

(6) Delay / Shift
(1441 Days)

Heart & Dagger Cluster: (The Rosetta Star of Revelation timing)
The alignment of the Heart & Dagger Cluster waypoint with the Death of the Beast / Antichrist literally unlocks the entire model. This should be no surprise, in hindsight, as the Nishimura Comet journey began on Halloween in 2022. In other words, God is sending this celestial message to Satan himself and forcing him to meet this deadline. God is in control of all things and how Revelation will play out and has made it clear that this Satan's defiance will soon come to an end. All Glory to God!

Note 17: The Star Uz. (Job)
This final Nishimura waypoint of the star named Uz, referring to the land where Job was from and thereby Job himself, is just another example of how precise God is with this design!

The story of Job conveys a profound message about faith, suffering, and God's sovereignty. Job, a righteous man, endures immense trials as his wealth, health, and family are taken from him. Despite his pain, he refuses to abandon his faith, though he questions God's justice. Job's friends wrongly accuse him of hidden sin, reflecting human misconceptions about suffering. God's response, highlighting His wisdom and control over creation, reminds Job of human limitations. Ultimately, Job's faith is vindicated, and his fortunes are restored.

The story teaches trust in God's greater plan, faith through adversity, and the promise of ultimate justice and hope.

The fact that God is telegraphing this message in this model tells us that we need to prepare for such adversity that will soon be upon us all.

Verses 29-30 "Immediately after the tribulation of those days shall the sun be darkened, and the moon shall not give her light, and the stars shall fall from heaven, and the powers of the heavens shall be shaken: And then shall appear the sign of the Son of man in heaven: and then shall all the tribes of the earth mourn, and they shall see the Son of man coming in the clouds of heaven with power and great glory." This 1335-days of Daniel 12:12 ends 134-days before the 1290-days of Daniel 12:11, which is the number of days "shortened" or no one survives. Verse 31 "And he shall send his angels with a great sound of a trumpet (#7), and they shall gather together his elect from the four winds, from one end of heaven to the other." Matt 24:36
(No one knows day and hour!)

Note 16: Jesus' 2nd Coming?
Per Matthew 24:36 we will not know the Day or Hour of Jesus' return. The model is only suggesting it may occur somewhere in the hatched 135-day window with Strong's definition of a "riddle."

This 135-day "riddle" from Pentecost to Shmini Atzeret, would agree within both this model structure and scripture.

General overview of the model:

(X) Each of these symbols are located throughout the study to provide more complete explanations and context of that particular area of the model.

Only after completing this model did I understand its true purpose. If you are going to conceal the timing of Revelation from your enemy, you certainly can't just place the answer right inside the Bible for them to read. Satan knows every word of scripture and would easily know the answer.

Therefore, the answer of Revelation timing "must" reside in other methods God can utilize to communicate with us. Placing "signs" in the stars, as He did with the Star of Bethlehem that announced the birth of His Son, is one example. The Revelation 12 Sign was another instance when God said, "you are now in the timeframe of Revelation." The Nishimura Comet is another "sign" God is clearly utilizing to telegraph timing, where confirmations of the model are starting to appear in 2026. (see confirmation section below)

(1) To start, the events I thought would happen when Nishimura passed through Virgo just prior to the Feast of Tabernacles in 2023, came and went without the immortal transformation of the man child described in Revelation 12 occurring on day one of that Feast.

(2) Then Nishimura passed the Heart and Dagger Cluster waypoint on 10-APR-24, and again nothing happened. It's not that I was expecting anything to happen as I've associated the Heart and Dagger Cluster as having something to do with the Abomination of Desolation. Still, something is missing, and I couldn't figure out what it was?

(3) Then a thought, inspired by the Holy Spirit, came to me. There is some type of "delay" happening with events that should have taken place but have not yet occurred. But how could I find out how much time was associated with the delay? The Holy Spirit then led me to look at the Jewish Feast Calendar. So I started checking alignments of the Nishimura waypoints with the calendar. That's when the entire model began to take shape.

(4) In 2024 when I shifted, or "delayed," the Nishimura 5-year timeframe by exactly 702-days, the following alignments were revealed:

▽1 Heart-Shaped Cluster aligned precisely with the first day of the Feast of Trumpets 2024.
▽2 Star named Uz (Job) aligned perfectly with Shmini Atzeret (8th Day of Tabernacles) 2029.

These two alignments defined the beginning and end of Nishimura's journey. But the major find, and alignment that revealed what I'm identifying as the Rosetta Stone of Revelation timing was:

▽3 Heart and Dagger Cluster aligning precisely with Friday the 13th in March 2026.

The Heart and Dagger Cluster / Friday the 13th alignment unlocked the most important piece of the model, which was the understanding of exactly where the Beast was being killed was to occur. Believe it or not this single moment is such a significant event that almost all day counts can be calculated off of it. This alignment does not match any Hebrew Feast, which is why it alluded me in the original 2023 study. After the 702-day shift, however, it still does not align with a Hebrew Feast, but it does make all of the other events in Revelation fit perfectly in their respective Hebrew Feast alignments and day-count Strong's definitions.

Then the fall 2025 Hebrew Feasts passed without anything happening. At that point I thought the model is just wrong. With this many alignments fitting perfectly with this 702-day shift, and having the Beast being Killed on Friday the 13th 2026, surely there is no way the model would survive further shifting forward to other years.

Then in early 2026 the Holy Spirit prompted me to be certain that the model could not be shifted further in time. After avoiding the question for a couple months I checked if it was possible for the model to shift forward.

(5) When you shift the model forward into the 2026 Hebrew Feasts, or 1087-day delay, nothing lines up in that year. This is due to the addition of Adar II, or 13th month of the Hebrew Calendar. This is done approximately every third year to keep the lunar months aligned with the solar year as the two differ about 11-days each year. Therefore, if they add an additional month every third year, or when the two have drifted apart by approximately 33-days, they keep the Feasts in their respective Spring and Fall seasons as commanded by God. (You will see that these additional months are now added to the Hebrew Feast Calendar.)

This confirmed that the model could not align in 2026, and therefore the Fall Feasts in 2026 where everyone is anticipating a rapture event will again pass without happening over the Feast of Tabernacles. This is confirmed by the model when you shift it one more year forward into 2027.

(6) However, When you shift the model forward into 2027, or with a 1441-day delay, the model begins to confirm itself not only with elements within the model structure, but also with external events that are now historical and have passed.

C1 God is telegraphing we now have the proper alignment with this 1441-day delay. How do we know with 100% certainty that this is correct? Because Strong's definition for 1441 is "seventy times," which only occurs one time in the Bible in Matt 18:22.

"Jesus saith unto him, I say not unto thee, Until seven times: but, Until seventy times seven."

This is where Jesus reveals His connection to the number 490. Peter asks how many times we need to forgive - seven times? Jesus responds by saying not seven times, but "seventy times" seven, or (70 x 7 = 490). Jesus wasn't saying forgive 490 times either. He was saying that "I AM" the way to complete forgiveness before God through this mathematical equation. We know that the word "Jesus" appears exactly 490 times in both the odd and even books in the New Testament. (see kjvcode.com) Before the New Testament was written Jesus knew His name would appear exactly 490 times in odd and even books. Jesus is thereby telegraphing to those of us in the last days that this 490 (seventy times seven) number is significant and for us to watch for it.

(7) This is now the second time 490 has appeared in this Nishimura model. The first time was taking the exact five years (1825-days) of Nishimura's journey and subtracting Daniel 12:12 1335-days (1825 - 1335 = 490).

"Blessed is he that waiteth, and cometh to the thousand three hundred and five and thirty days."

This is also how we know that the 1335-days in Daniel is not an historical event. In other words, if you take the 5-years of the Nishimura journey, which is technically a message being telegraphed to Satan and all evil that their time is up, subtract the 1335-day message of a blessing to those that make it through this difficult time, what is left is 490, or Jesus. (1825 - 1335 = 490). Is not the overall message of Revelation just that? Is not Revelation all about how God is going to remove all evil from the surface of the planet so no one can be influenced by evil during Jesus' Millennial Reign? That's exactly what Revelation is all about and this message is encoded in the math.

C2 God is now also revealing that the Nishimura Comet is in fact the Rosetta Star of Revelation timing as I have suspected through the alignment of a Nishimura Waypoint and now a current event. On 26-JAN- 26, the "exact day" the Nishimura Comet passed Beta Pyxis (Beast / Antichrist), the last hostage was returned to Israel. Without a doubt this confirms the Nishimura Comet is tied to Revelation in its own way. And since Nishimura is tied to Revelation, we know in the original model that God telegraphed the Feast of Tabernacles is important via the 333-day count measurement from Halloween 2022 to the Feast of Tabernacles in 2023. What is also significant and confirms the Feast of Tabernacles is important is the start of the invasion / war on Israel was on the 8th day of the Feast of Tabernacles, or the day of the first caught up (rapture) event.

Technically what this does is connect the Nishimura Comet to the Hebrew Feast Calendar and current events - all three are now connected. And because the invasion started on the 8th day of Tabernacles, this confirms that this day is significant - verifying the first rapture will occur on that Feast day in some year - which according to the 1441-day delay will be 2027.

C3 The model confirms the importance of the Feast of Trumpets. Gamma Pyxis is now confirmed as it lands on the 25th Anniversary of 9/11. Note the "25" connection to the 250th Anniversary of U.S. Independence.

C4 2026 also revealed another unmistakable event that would confirm the alignment of the model is correct - the Fourth of July (250th Independence Day). This is the most significant July 4th since the Bicentennial in 1976 50-years ago. When we shift the Nishimura model forward 1441-days the 250th Independance Day of the United States of America lands "exactly" on the midpoint of the Two Witnesses ministry - to the day! Again, this is confirmation that the model is now shifted properly. How do we know this with 100% certainty? Because 630-days after the Two Witnesses ministry started on the Day of Atonement 2024, which will last 1260-days, the Strong's definition of 630 is "set at liberty" found in Acts 26:32. At this point is starting to become clear that God is making the clues obvious. What are the odds that exactly at the midpoint of the Two Witnesses ministry not only does God use the 250th Independance Day to signify it, but utilizes a Strong's definition that literally is saying "set (the model) at liberty." How much more obvious can He be?

NOTE:
I want to take a moment and explain what God is now obviously doing with providing the timing of Revelation to those of us watching for it. He is using a multi-layered communication channel. As I've stated, and is common sense, God cannot put 100% of the timing message in the Bible as His enemies can simply read it. He needs to send information to us, which He promised to do in Amos 3:7, John 16:13, Daniel 2:28, and Revelation 1:1, but those parts of the message must reside outside of the Bible. The image below illustrates what is clearly happening.

Clearly, God is utilizing a collection of events and alignments that when combined together in this model become overwhelmingly authenticated via the mathematical laws of probability. We all know that mathematics is one of God's hallmarks. He uses numbers in virtually everything in the Bible. You cannot read more than a couple verses typically without running into a number of some kind. Would it not therefore seem logical that God would communicate the timing of Revelation mathematically? That's what is happening here. The day counts are the numbers, and now we are seeing actual events landing precisely on some of these milestones. And when you introduce the concept of compound probabilities, this entire body of work could have only been designed by God Himself.

(8) The Sign of the Dragon: (MUST OCCUR BEFORE FEAST OF TABERNACLES!)

The Draconids meteor shower is one of the most unpredictable and, at times, most active showers in modern recorded history, with accounts dating back to the early 1800s. The Draconids meteor shower emanates from the constellation Draco, whose name literally means "Dragon." In 1933, it caught astronomers completely off-guard by producing a monumental storm of thousands of meteors per hour. Eyewitnesses across the Northern Hemisphere described the spectacle with terror, many convinced that the very sky itself was collapsing in upon them.

Over the past century, the Draconids have erupted in six major outbursts: 1933, 1946, 1952, 1985, 1998, and 2011. The striking observation of these six years of elevated meteor shower activity is that they all coincide with significant events in Jewish / Israel history. 1933 is the most obvious as this was the year Hitler rose to power and during this most powerful shower, which occurred during the Feast of Tabernacles, with estimates of 30,000 meteors per hour, severe Jewish persecution was taking place all over Germany.

In each of the six years of severely elevated meteor shower activity the connection between the plight of Jewish people and the signaling of dissatisfaction by God for His people is unmistakable. He is clearly sharing His pulse through the Draconid Meteor Shower and telegraphing to us this channel of communication as it pertains to his chosen people.

When the Sign of the Dragon occurs in 2027 between 06-OCT-27 and 10-OCT-27 it will be the most notable Draconid meteor shower in recorded history. This will be due to the fact that Israel and the Jewish people, the "woman" in Revelation 12:2, will be "travailing in birth," or stated plainly, in the midst of a severe war that looks unwinnable. With His chosen people suffering to such a level as this God will telegraph through this meteor shower of the events He is about to put in motion in Revelation and force the hand of Satan to act and trigger Revelation 12:4.

*"And his tail drew the **third** part of the stars of heaven, and did cast them to the earth: and the dragon stood before the woman **which was ready to be delivered**, for to devour her child as soon as it was born."*

This is the FINAL WARNING by God to repent and be a part of the first "caught up" (rapture) event days or hours later. I pray that we remain strong and faithful during this timeframe.

Significant Model Elements:

(9) The Trumpet warning sequence is technically the most important part of the model. If these events begin to happen on these exact days, then the model is telegraphing there are only days to prepare for the possibility of being included in the first "transformation / caught up" event on the Feast of Tabernacles 2027. The Sign of the Dragon as described above will be a big part of this warning sequence.

(10) The opening of Seals 1-5 will be after the Feast of Tabernacles 2027. The model seems to be pointing to 7-days after that Feast (see Note #2) for when the 1st Seal is opened.

(11) The 150-days of persecution, pit opened, and ending with the 10-days of darkness that starts on Purim 2028 will be the most violent period in human history. this is where the 5th Seal Martyrs, which no one could count, come from.

(12) Satan is going to counterfeit Holy Week. This begins on 21-MAR-28 with the death of the Beast and ends 7-days later on 27-MAR-28 (6th Trumpet) with the Abomination of Desolation, Two Witnesses caught up to heaven, and Jesus leading the Remnant into the protected wilderness for 1260-days.

(13) The 6th Trumpet is also significant as this is the point that 1/3 of those remaining, after virtually all believers are already gone, are killed. These are the current "elite" or rulers of the world.

(14) The day counts recorded in the book of Daniel are now self-explanatory. The 1260-days where the remnant of Israel is protected in the wilderness. The 1290-days starts with the 7-days of the unholy week and ends on the 7th day of the Feast of Tabernacles 2031. Again, "7's" at both ends provides confirmation. And finally, the 1335-days from the Feast of Trumpets 2025, where Trumpets 1-4 can begin, until Pentecost 2031, when the Holy Spirit pours out into the Earth for one last push for souls before the 4th caught up event, and where the Day of the Lord can begin at any time, finally makes sense.

(15) Jesus' Second Coming window. This 135-day "riddle" telegraphs an unknown date but general placement after the 1335-days spoken of by Daniel. This is where Jesus puts an end to all of the evil left in the world before His Millennial Reign.

All Glory to God!

In Hebrew numerology, 22 means disorganization or chaos. It is also seen as a doubling of 11, which can mean divine correction or judgment for rebellion, as in the Genesis 11 story of the Tower of Babel. These final 22-days are to repent! (See Trumpet Warning Sequence & Sign of the Dragon.)

Note 9: 144-days (Seal 144k)
The 144k are precisely identified by the 144 days of their ministry. They are sealed precisely in the middle of Tabernacles where the "man child" first seals the 144k (their 1st job), and then God grants the "man child" 3-1/2 days to say their goodbyes.

Note 11: Purim
Purim is a Jewish holiday that celebrates the salvation of the Jewish people from a plot to destroy them, as recounted in the biblical Book of Esther. The name "Purim" comes from the word "pur," meaning "lot," referring to the lots cast by Haman, the villain of the story, to determine the date on which the Jews were to be annihilated. The 10-days of darkness starts on Purim to fulfil evil's deterred slaughter.

(12) Unholy Week (reverse counterfeit of Holy Week)
Satan has been waiting 2000-years for this moment. He's counterfeiting Holy Week by first having his son (Antichrist) die on Tuesday 21-Mar-28, rise on Thursday 23-mar-28, and kill the two witnesses at sundown, and then seat his son on God's Temple Throne on Monday 27-Mar-28, thus becoming the Abomination of Desolation and beginning the reign of the Beast.

Note 15: 2554-1/2 days (7-years minus 1/2-day)
Throughout all human history, evil has influenced and controlled, through manipulation and deception, a very difficult and dark past. However, that is all about to change as this final 7-year timeframe, starting on 13-OCT-24 with the Two Witnesses beginning their ministry, to the delayed / shifted Nishimura Comet Waypoint of the star named Uz, which is the land that Job came from, on 10-OCT-31.

The reason this timeframe is exactly 2554-1/2 days is because the Two Witnesses' ministry lasts 1260-days until they are killed, then they lie dead for 3-1/2 days, then there is 1291-days until the Nishimura Comet reaches the star Uz.

This final 2554-1/2 days is the end of the forces of evil over humanity. Jesus is going to show the world what God had originally intended!

Note 5: The Two Witnesses
The Two Witnesses in Revelation 11 proclaim God's mercy and warn of divine judgment during the end times. They begin this ministry on the Day of Atonement 2024 not by accident, but of precise timing exactly 7-years prior to the end of the Nishimura delayed model.

They minister for 1260-days, first to a private group of individuals, and then have a public ministry before they are killed by the Antichrist. They testify against the world's corruption and call people to repentance. Empowered with miraculous abilities mirroring the prophetic ministries of Moses and Elijah suggest their identities. Their testimony provokes widespread opposition, culminating in their death at the hands of the beast. After three and a half days, the are resurrected "caught up #3" into heaven.

The Day of Atonement sheds light on the significance of their ministry, which emphasizes repentance, atonement for sin, and reconciliation with God, which is why God chose that specific day to send them to the earth. The witnesses' mission calls humanity to turn back to God during a time of great rebellion. Their role reflects the themes of cleansing and judgment central to Yom Kippur, as they offer a final chance for repentance.

(15) 1260-days [Rev 11:3 - Two Witnesses Ministry begins]
C4 Exact middle of Two Witnesses Ministry — 04-JUL-26 — 250th 4th of July 2026
(16) 630-days [Acts 26:32 set at liberty]
(17) 454-days [2 Timothy 3:9 folly]

Note 6: The 4th of July 2026
I have stated several times with the thesis of this model that God is not solely relying on the Bible to send this timing message. The reason is that if the Bible contained 100% of the message, then Satan could just read it, along with the rest of us. Biblical "text" is also subjective in its interpretation.

So far in this model it seems like God is using the Bible (scripture), Signs in the Heavens (Revelation 12 Sign / Nishimura Comet), Strong's Concordance (cipher), the Hebrew Calendar (shift / delay), and now a US Holiday - the 250th (significant) 4th of July in 2026.

Well, would you believe that the exact middle "day" of the Two-Witnesses ministry just "happened" to fall exactly on the 4th of July, 2026? When we look at Strong's at that day count of 630-days (1/2 of 1260-days) the definition is "set at liberty" - what are the odds?

Note 7: Caught Up Theories (pre-trib, mid-trib, post-trib, pre-wrath, multiple)
I subscribe to the multiple thesis presented in the Weltner timeline found at https://endtimetimeline.com as this model provides a compelling possibility.

Paul's description of this "twinkling of an eye" transformation from mortal to immortal at the last trump (when Christ returns) in 1 Cor. 15:51-52 is a given. But if we could prove a second "transformational" moment, then multiple events are possible. The "caught up" of the 144k confirm the multiple rapture thesis.

As I was building this Nishimura model following the Holy Spirit's direction, a thought entered my mind when dealing with Purim. The thought was simply this; "count 144-days backwards from Purim." When you do this you land right in the middle of Tabernacle's 7-day window the Weltner timeline theorizes is the 1st of three transformational events. This gives the man child (Rev 12:5) 3-1/2 days to seek out the 144k and prepare them to be sealed in the 4th day, and then 3-1/2 days to say goodbyes and minister before being caught up on the 8th-day.

Further confirmation that this may be correct is the same 8-days applied to the 144k's transformational event, where 136-days remains defined through Strong's as "hymn," referring to their song in Rev. 14:1-3 (KJV) that only they know.

Mathematically, this provides compelling evidence of multiple "caught up" events.

Note 8: 3-1/2 Days
Trumpets 1 - 4 will occur 3-1/2 days apart from each other. This alternates the impact area on opposite sides of the Earth. 3-1/2 days is also 84-hours where Strong's definition is; wrath, fury, rage.

The 4th Trumpet happens on the 1st day of Tabernacles, where the man child is transformed. 3-1/2 days after that, the 144k are sealed. 3-1/2 days after that is the 7th day of Tabernacles.

That's six (6) 3-1/2 day increments, and when added to the final 3-1/2 days the Two Witnesses lie dead in the street, that equals seven (7) 3-1/2 days! (complete)

(21) 22-days

Rosh Hashana (5 - Feast of Trumpets) Trumpets 1-4 (3-1/2 days each)
144,000 Sealed in middle of Tabernacles (3-1/2 days)
Shmini Atzeret (8th Day of Tabernacles) caught up 1
S1 S2 S3 S4 S5
Seals 1-5 (10)
Purim (Final slaughter under the Harlot system) caught up 2
7th day of unholy week

Note 12: 1260-days
Who is it that is considering, pondering, reasoning, thinking? Simple, the Remnant of Israel. In the world at this time people (not animals) are being sacrificed daily (see 1290-days) in the Beast System. The Remnant is safely protected by God in some remote location, and they know destruction and devastation is occurring across the world, and they are finally getting their act together to follow God.

(14) (33) 1290-days [Daniel 12:8-11 counting backwards!] ("What shall be the end of these things?")
Reign of the Beast lasts 1290-days

7th day of Tabernacles
134-days [Rev 19:5 to praise]

Note 13: 1290-days
Daniel 12:8 asks God, "what shall be the end of these things?" How about Jesus' Millennial Reign? That would put an end to these things. Daniel 12:11 was written in Hebrew and never says "daily sacrifice," but תָּמִיד with the transliteration hat-tāmîd, which means "the continual." It's talking about a worship system, not a sacrifice. The verse is literally stating a timeframe between two events - the abominations (plural) and when "the continual" (or worship system) is taken away (סוּר transliterated hûsar meaning "is/shall be removed"), which is 1290-days. Daniel fully understands this difficult timeframe, as he is describing it from the visions, and is asking God directly when is this difficult future time with all of "these (bad) things" he's seeing going to end? Therefore, the answer is the 7th day of the unholy week (start) until the 7th day of Tabernacles in 2031 (end) where God telegraphs this in the Nishimura Comet 1298-day window.

Note 14: 31-days
Strong's definition for 31 is; message. 1 John 1:5 (KJV)

This is the message we have heard from Him and announce to you, that God is Light, and in Him there is no darkness at all.

The "message" is the Nishimura Comet itself. This is the last 31-days of the shifted / delayed Nishimura 5-year journey. But the message is not solely for us to know timing - it's primarily to Satan and evil saying time is up for their influence over the world. The scripture above gives the contrast between God (Light) and evil (darkness).

Also notice the 109-day window between the 1335-days in Daniel and this 31-days is where the wrath of God is poured out in the Bowl judgements on all evil "unceasingly" per the Strong's definition, which also directly connects the original Nishimura 109-days to this specific window. This is another confirmation that the timing of Revelation is coded into the Nishimura Comet.
